PINK CITY TURNS TO RED CITY

With great pain we inform you and all the friends that there was a serial bomb blast in Pink city of India, Jaipur, which is a very prominent tourist attraction. There were 8 explosions at different important places which trouble makers selected to humiliate peace loving people of Jaipur.

The loss of life in these bomb explosions was around 60 in number injuring around 100.

This has caused a big social loss. However, looking to the newspaper reports we do not expect insurance loss.
