2<sup>nd</sup> July 2007

### Rainfall in Mumbai

Once again monsoon has hit Mumbai on Saturday, 30<sup>th</sup> June 2007 with a bang. Fortunately it was a weekend this time and the intensity of the rains was not as severe as on 26<sup>th</sup> July 2005. Hence its impact on human life as well as property was also much less. Comparative rainfall figures given for the two events are self explanatory and indicate that the insurance industry is not expected to witness loss scenario of similar magnitude. Though, it is too early to speculate on the loss scenario at this stage.

	30.06.07	26.07.05
Colaba	187 mm	73 mm
Santa Cruz	430 mm	944 mm

Figures are for 24-hour rainfall

### Death toll

30.06.07	16
26.07.05	400+

The tops of trucks are barely visible in the flooded grounds of a factory in Kandivli on Saturday
