BIHAR FLOOD – AUGUST / SEPTEMBER 2008

Over-flooding of river Koshi has resulted in havoc in many parts in the State of Bihar. The flood has affected over 3 million people in northern Bihar. The worst affected districts in the state are Madhepura, Bhagalpur, Araria and West Champaran.

We have not come across any news of any major industry affected by the floods. Hence it is felt that though this is a major human and socio-economic loss, this event may not be very significant in terms of insurance / reinsurance losses.

While it is too early to comment on this subject, we will keep you informed as and when further information is available.
